ACTION

1ST PLACE:

Two districts in this state wanted to see what they could do to help autistic children in their communities. They learned how to construct weighted blankets, weighted lap pads and weighted vest/shoulder snakes for the children. With this in mind, they formed work days, learned from therapists about the best colors, sizes, weights, and materials to use, and in the end, produced 135 free weighted blankets, 72 weighted lap pads, and 54 weighted vest/shoulder snakes. Congratulations Missouri.

2nd PLACE:

Although this state lost its grant writer during the last four months of a grant the state had received in 2009 from the Susan G Komen for the Cure Foundation, they persevered and fulfilled their contract. They were able to reach 830 people through educational material, 12,550 through advertisements, and to have paid for 44 mammograms from the remaining grant money. Congratulations West Virginia.

3rd PLACE:

This state realized that in the past recycling was a way of life, with money being short, one learned to stretch everything, but the words "Reduce, Reuse, Recycle" were new to their vocabulary. So they determined that they needed to education the public into understanding how simple it is to make one change in their home and community through the vehicle of a "t-shirt bag." They were able to teach over 300 5th graders as well as presenting the program on public television, reaching over 10,000 people. Congratulations Hawaii.

LEADERSHIP

1ST PLACE:

The members in this state felt that the general public did not know who FCE was, so taking a bold move to make the name known, they determined that they would produce a television program to market FCE. They were able to produce 14 programs which reached people as far away as Las Vegas and the East Coast. This program not only marketed FCE, but proved to its members, that they could get in front of a camera and show their leadership skills.
Congratulations Hawaii.

2ND PLACE:

A region in this state heard of a town devastated by floods in May of 2010 near Nashville. Most of the people in this town were able to rebuild, but Christmas was not a top priority for them, so this region set about making a difference. In the end, 19 counties participated in the project. Over 8,000 items, purchased or handmade, were delivered. There were 40 very happy families.
Congratulations Tennessee.
